

Anatomy for personal injury and clinical negligence lawyers

London - 6 November

Manchester - 27 November

At the end of this popular course delegates are sure to go away with a better understanding of anatomy. Lawyers will at last be able to understand medical terminology, and go on to win cases with confidence!

Topics to be covered include:

- Introduction to anatomy
 - Nomenclature
 - Orientation
- Skeletal anatomy
 - Bone names
 - Protuberances etc
- Soft tissue anatomy
 - Muscles, joints, tendons
 - Peripheral nerves
- Central nervous system anatomy
 - Brain and spinal cord
- Splanchnology
 - Digestive, urinary, reproductive and respiratory system
- What goes wrong - trauma
 - Injury to bones (fractures: types, deformity, classifications)
 - Injury to soft tissues (sprains/strains, tendons, nerve/vascular injury)
 - Injury to brain/spinal cord
- What goes wrong - trauma
 - Heart, lungs and intestines
 - Reproductive system and GU problems
 - Meningitis and vascular problems such as DVT and PE
- Prognosis
 - When injury affects prognosis
 - When negligence affects prognosis
 - Understanding of how to look at anatomy when faced with claim.

"A well structured and well presented course. It suited the novice as well as the experienced PI practitioner. A most worthwhile course."

Colin Holburn is a consultant in A&E medicine at Sandwell General Hospital. He is a fellow of the Royal College of Surgeons and a fellow of the College of Emergency Medicine. He has run a PI, medical negligence and criminal expert witness practice since 1992 and provides reports to claimants and defendants, with particular reference to whiplash and hand injuries.

Nigel Zoltie is a practising medicolegal expert, A&E consultant and trainer in a variety of medical related subjects. He qualified from Bristol University in 1977, underwent surgical training (including plastic surgery) and this was followed by accident & emergency training, with appointment to consultant in accident & emergency in 1993. His special interest areas are whiplash injuries, including low velocity impact, hand injuries, and clinical negligence.
