ABOUT US

The Association of Personal Injury Lawyers (APIL) was founded in 1990 by a group of lawyers working on behalf of injured people and is a well-established, national, not-for-profit organisation. APIL fights to ensure injured people receive full and fair redress for their often life-changing injuries.

APIL is run by a committed team of professional staff at the Nottingham headquarters who undertake campaign work at the highest levels of Government and in the press, and provide information and training to help ensure its members offer the highest standards of ethical legal advice.

With a membership of over 3,200 lawyers, APIL provides many services to its members in the form of publications, searchable contact databases, and briefing notes.

WAYS OF MARKETING TO OUR MEMBERS

There are many ways in which advertisers and experts can market their services to our members:

- _ On the web
- Publications - PI Focus magazine and expert and rehabilitation services directory
- Apil events
- Expert database (expert services only)

ON THE WEB

www.apil.org.uk

There are a number of opportunities available for placing a banner on our web site at www.apil.org.uk, depending on the nature of your business.

The members' password protected area of our website is the most comprehensive information resource available for our members and is easy to navigate through its various forums, groups and publications.

PI FOCUS

APIL's PI Focus is circulated to all current subscribing members of the association. It is also available on subscription to organisations supporting the aims of the association or experts choosing the new enhanced subscription.

Published ten times a year, PI Focus is packed full of news, reports, essential updates, legal articles, case notes and specialist features for personal injury lawyers. Advertising space is limited in each edition and does book up quickly. The publication is circulated along with a limited number of flyers.

EXPERT AND REHABILITATION SERVICES DIRECTORY

APIL's expert and rehabilitation services providers' directory is published in June. The directory is compiled from APIL's databases which are available online, or as a personal service for APIL members upon request.

The directory contains details of around 490 experts, those offering rehabilitation services and other support organisations appear at the back of the publication.

REHABILITATION SERVICES DATABASE

APIL is keen to promote helping injured people have access to rehabilitation services. There is therefore no fee to be listed on APIL's online rehabilitation services providers' database and only a small charge for inclusion in the hard copy directory.

EXPERT DATABASE

Our well-established expert witness database holds the details of around 490 experts from a diverse range of disciplines. At present our members carry out over 1,030 unique online searches each month, in addition to over 40 experts' details being given out to APIL members each month from postal, email and telephone enquiries coming into the office.

As well as providing APIL members with a valuable resource, we can also provide experts with excellent opportunities to market their services directly to thousands of personal injury lawyers nationwide.

A standard package includes contact details and areas of expertise. The enhanced option displays a photograph and logo along with details of expertise within both the directory and online database.

Enrol online or through returning a completed application pack (available on request or downloadable from our website) expert database entries remain registered for a full 12 months. Experts also appear in the Experts and Rehabilitation Services Directory sent out to all of our members in June.

Advertisers and experts may also choose to advertise in the publication.

CONFERENCES EXHIBITIONS AND SPONSORSHIP

In 2022, APIL will run the advanced brain & spinal cord injury residential conference at the Celtic Manor Resort in Newport, South Wales in early May.

This hybrid event gives delegates the opportunity to either attend in person or alternatively, view the event virtually via APIL's conference app. All delegates will have full access to the conference app and this new feature will play an important role in the event, giving our sponsors and exhibitors even more opportunity than ever before to keep in touch with the conference attendees.

Sponsorship and exhibition packages are limited and we expect them to sell quickly. If you would like to attend we would urge you to book now to avoid disappointment!

For further information on this and other APIL conference sponsorship and exhibition opportunities, please contact Kathryn Scott at kathryn.scott@apil.org.uk.
