Letter to the editor
The Sun

Sir

Re: War on 'compo culture', 14 June, 2010, by Graeme Wilson

It is high time health and safety and litigation are discussed openly and sensibly, but the Government must not forget that regulations are in place to protect vulnerable people. What is needed is a myth and reality check, so that any debate on this issue is based on fact, not sensational headlines.

Yours faithfully

Denise Kitchener
Chief executive, Association of Personal Injury Lawyers (APIL)
