

# Anatomy for personal injury and clinical negligence lawyers

**Manchester 9 May**  
**London 16 May**

**\*\*\*NEW REVISED CONTENT FOR 2018\*\*\***

At the end of this popular course delegates are sure to go away with a better understanding of anatomy. Lawyers will at last be able to understand medical terminology, and go on to win cases with confidence!

Topics to be covered include:

- Introduction to anatomy
  - Nomenclature
  - Orientation
- Skeletal anatomy
  - Bone names
  - Protuberances etc
- Soft tissue anatomy
  - Muscles, joints, tendons
  - Peripheral nerves
- Central nervous system anatomy
  - Brain and spinal cord
- Splanchnology
- What goes wrong - trauma
  - Injury to bones (fractures: types, deformity, classifications)
  - Injury to soft tissues (sprains/strains, tendons, nerve/vascular injury)
  - Injury to brain/spinal cord
- What goes wrong - illness
  - Heart, lungs and intestines
  - Reproductive system and GU problems
  - Meningitis and vascular problems such as DVT and PE
- Prognosis
  - When injury affects prognosis
  - When negligence affects prognosis
  - Understanding of how to look at anatomy when faced with claim.

***"A well structured and well presented course. It suited the novice as well as the experienced PI practitioner. A most worthwhile course."***

**Colin Holburn** is a consultant in A&E medicine at Sandwell General Hospital. He is a fellow of the Royal College of Surgeons and a fellow of the College of Emergency Medicine. He has run a PI, medical negligence and criminal expert witness practice since 1992 and provides reports to claimants and defendants, with particular reference to whiplash and hand injuries.

**Nigel Zoltie** is a practising medicolegal expert, A&E consultant and trainer in a variety of medical related subjects. He qualified from Bristol University in 1977, underwent surgical training (including plastic surgery) and this was followed by accident & emergency training, with appointment to consultant in accident & emergency in 1993. His special interest areas are whiplash injuries, including low velocity impact, hand injuries, and clinical negligence.

**Accredited by:**
